

CASH MEETS CASHLESS

First in its class CashFlow® mei-pay 2000 is the MEI bill validator equipped with a cashless MIFARE bezel for the best and most efficient combination of cash & cashless payment

Reliability:

- Over 3 million units sold worldwide are a testimony to the reliability of CashFlow® 2000 platform.
- Optical sensors with advanced algorithms ensure consistent note recognition & counterfeit rejection.
- With over 3.5 billion media sold across the globe MIFARE technology is the most successful platform for automated payments, ticketing & access control today.

Flexibility:

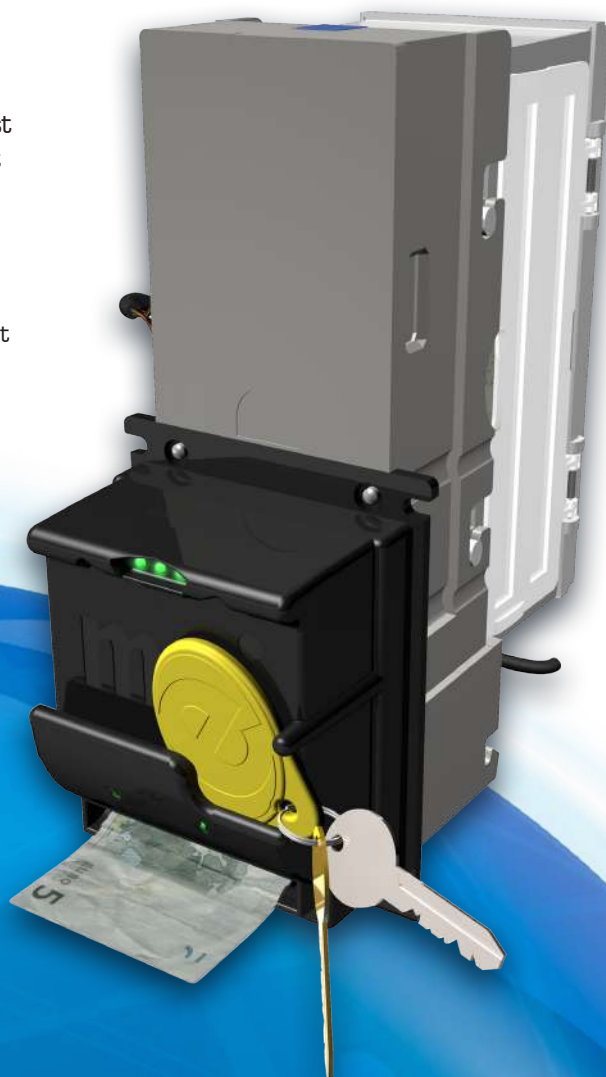

- All around flexibility: from hardware options to set up. The CF mei-pay bezel can be easily retrofitted onto the existing CF2000 bill validators.
- MIFARE technology brings the flexibility of configuration & application enabling operators to offer their customers a variety of loyalty and reward schemes.
- The universal bezel works with a wide choice of media: e-tag, e-keys, cards or self-adhesive stickers from MEI or your own custom media.
- Ultimately: consumers have more payment choice.

Security:

- Fully encased optical sensors of CF mei-pay 2000 dramatically reduce the acceptance of counterfeit banknotes.
- MIFARE systems assign a specific code to every site, protecting the information from unauthorised persons.

Best Value:

- Integration delivers smaller hardware footprint on the machine and reduces the cost of acquisition.
- Simple media revaluation with notes directly at the machine.

Additional Product Highlights

- Over 97% first time acceptance rate, even of torn, wrinkled, faded, dirty or wet banknotes
- Lowest jam rate in the industry
- Reliable rejection of fraudulent notes
- Robust and versatile design of the universal bezel
- Customisable media for more brand visibility
- Different cassette sizes available
- Compatibility with CashFlow® coin managers for complete range of payment options
- Low cost of service and maintenance
- User-friendly design with low requirements for training
- 1 year warranty
